The Recent Important Liquor Decision
The Law Fully Sustained
The text of the recent important decision of the Supreme Court of Vermont, delivered by Chief Justice Royce in the cases of the State vs. John O'Neil and State vs. certain backages of intoxicating liquor, heard at the last general term is printed in the Mossonger. O'Neil was a Ratland liquor seller, who, finding the business unprofitable in Rutland after several convictions under the prohibitory law, moved to Whitehall, whence he supplied his Vermont customers, sending them their jugs and demilohus of whiskey by express C. O. D. O'Neil was arrested in Vermont, a carboad of liquor seized in the express office, about Christmas time, and upon trial O'Neil was convicted of an immensional of liguor seized in the express office, about \$7000 and sentenced to 120 days in jail, while the liquor seized was condemned. His lawyers appealed his case and decision within the State long in the small pox or yellow fever, or tools with which it was intended to commit a burglary, the State 250v to protect its citizens by seizing and rendering harmiess such articles, simply because they might have been brought in the ordinary course of business from another state. O. D. bills, to gether with the charges for the transportation of the packages and for the return of the money paid. This direction was understood by the express company, which received the shipments coupled therereceived the shipments coupled there-

The goods were entrusted to the carrier to transport to the place of destination mamed, there to present them for acceptance to the consignee, and if he accepted them and paid the accompanying invoice them and paid the accompanying invoice and the transportation charges to deliver them to him; otherwise to notify the consistences and hold them subject to his order. It is difficult to see how a seller could more positively and unequivocally express his intention not to relinquish his right of property or possession in goods until payment of purchase price than by this method or shipment. We do not think the case is distinguishable in principle from that of a vender who sends his clerk or agent to deliver the goods, or forwards them to, or makes them deliverable upon the order of his agent, with instructions not to deliver them except on payment of the price or performance of some other specified condition precedent by the value. The vendors made the express company their agent in the matter of the delivery of the goods, with instructions not to part with the possession of them except upon prior or contemporaneous receipt of the price. The contract of sale therefore remained incheate or executory while the goods were in transit or in the hands of the express company, and could only become executed and complete by their delivery to the consiguees. jail, while the liquor seized was condemned. His lawyers appealed his case and carried it to the court of last resort, with the result that the court affirmed the decision of the County Court on all points. One point raised was whether the sale was made in Rutland or Whitehall. On this point Chief Justice Royce said:

The liquors were ordered by residents of Vermont from dealers doing business in the State of New York, who selected from their stock such quantities and kinds of goods as they thought proper in compliance with the terms of the orders, put them up in packages, directed them to the express company as a common carrier for transportation, accompanied will a bini, or invoice, for been listance, which it is necessary here to consider the latter of the first occurrence of the collection. The shipment was in each instance, which it is necessary here to consider the various embarrasments likely to the court of last resort, the case of the State vs. O'Neil was properly admitted, notwalbstarding the conviction appeared to have been more than three years before the trial. This reason has no application to a case where the only proof that can be used on the one side or the other is matter of record. We should therefore have no justification, even if we deemed it within the scope of our power and duty, for making applica-tion of a rule of limitation by analogy in
